Our Quality Control Process

As India's leading ISO 17100:2015-certified translation company, we strive to deliver top-quality projects to all our clients.

We employ comprehensive procedures that involve multiple reviews and guarantee the highest quality for all our projects.

Here are the steps we follow for efficient project delivery:

- **Project procurement:** We receive the project, analyze it, create a glossary, and assign linguists.
- **Translation process:** We are mindful to keep our translations accurate and follow proper guidelines.
- **Post-Translation:** Our expert reviewers proofread the result, enable DTP wherever required, and finally deliver the project to the client.
